### ARTICLE III BANKRUPTCY COURT APPROVAL

**3.1 Entry of Order Approving Sale.** As soon as reasonably practical, Paradigm shall file an application or motion with the Bankruptcy Court, and serve upon all creditors, parties in interest that have filed notices of appearance and the United States Trustee, seeking entry of an order pursuant to 11 U.S.C. § 363, approving the sale and all transactions contemplated under the terms of this Agreement and the performance by Paradigm and ICTX of their obligations under this Agreement, including the sale of the Purchased Assets to Zayo (the "Sale Order"). The Sale Order shall be in a form reasonably satisfactory to the Parties and shall provide that: (i) the stay imposed by Bankruptcy Rules 6004(h) 6006(d) is waived, (ii) Zayo is a good faith purchaser entitled to the protections of section 363(m) of title 11 of the United States Code ("Bankruptcy Code"), (iii) the Purchased Assets are transferred to Zayo free and clear of all liens, claims and encumbrances, and (iv) any and all cure obligations under any contracts assumed and assigned to Zayo shall be satisfied by Paradigm unless otherwise expressly agreed to by Zayo. For the avoidance of doubt, notwithstanding any provision in this Agreement, Zayo is assuming only the Assumed Liabilities and is not assuming any other liability or obligation of Paradigm or ICTX of whatever nature whether presently in existence or arising hereafter, including, without limitation, any liability for any claim, action, suit or proceeding pending against, or judgment against, Paradigm or ICTX (including the Purchased Assets) as of the Closing Date.

### ARTICLE IV TRANSFER DOCUMENTS

**4.1 Transfer Documents.** At the Closing, Paradigm or ICTX, or both, as applicable, will deliver to Zayo (a) one or more Bills of Sale in substantially the form attached hereto as Exhibit B (the "Bill of Sale") covering the Purchased Assets, and (b) all such other good and sufficient instruments of sale, transfer and conveyance consistent with the terms and provisions of this Agreement, including, without limitation, the Purchased Assets, and any other assignments as shall be reasonably necessary to vest in Zayo all of Paradigm's or ICTX's, or both, as applicable, right and title to, and interest in, the Purchased Assets.

**4.2 Consent Documents.** At the Closing, Paradigm will deliver to Zayo, (a) the Transfer Agreement and associated documents signed by T-Mobile and (b) the document terminating the Subcontract Agreement (the "Subcontract Termination Agreement") signed by Paradigm and ICTX, in substantially the form attached hereto as Exhibit C.

### ARTICLE V CONSIDERATION

**5.1 Consideration.** In exchange for the sale, assignment, transfer, conveyance and delivery from Paradigm and ICTX of the Purchased Assets, Zayo shall assume responsibility of the Project in accordance with the Transfer Agreement

and pay(to within a hundred dollars accounting for minor rounding errors) Three Million Three Hundred Six Thousand One Hundred Thirty-Two U.S. Dollars (\$3,306,132) (the "Purchase Price"), consisting of:

(a) **Commission Payment.** The Subcontract Agreement granted a 7.164% commission payment to Paradigm based on the monthly recurring charges from T-Mobile. In lieu of paying a commission based on the recurring monthly recurring charges from T-Mobile, Zayo shall pay at Closing a one-time amount of One Million One Hundred Six Thousand One Hundred Thirty-Two U.S. Dollars (\$1,106,132) in full satisfaction of any and all amounts due and owing to Paradigm under the Subcontract Agreement.

(b) **Completed Sites.** ICTX has completed or will complete the outside plant, poles and fiber routes, as well as the conduits, poles, strand, power connections, fiber optic cable and appurtenances fiber, power and pole installation for thirty-eight (38) small cell nodes ("Completed Sites"). No later than one hundred and twenty (120) days following the execution of this Agreement, ICTX shall deliver to Zayo a Bill of Sale for such Completed Sites in substantially the form of Exhibit B hereto. Zayo, relying upon information from Paradigm and ICTX, that the Completed Sites are functional, include all necessary underlying rights, are constructed according to industry standards and have not been rejected by T-Mobile, agrees to accept these Completed Sites subject only to such representations and warranties. Acceptance of a site takes place at the earlier of any of the following: a) Closeout Package (as defined in the agreement between Zayo and T-Mobile) acceptance by T-Mobile, b) two (2) weeks after delivery of a completed Closeout Package, with no rejection or denial from T-Mobile, or c) sixty (60) calendar days after ICTX has completed all tasks towards completion of a site and has notified Zayo that it is unable to continue or complete a site due to waiting for T-Mobile or Zayo provided approvals, parts, or some other component required to complete a site. Upon resolution of the issue(s) causing such delay, ICTX will proceed diligently to complete such site. In addition, Paradigm and ICTX shall assign any agreements with the local power company concerning the completed sites over to Zayo, along with any related permits obtained from the City of Houston or any other right-of-way provider. Proper documentation for the poles and fiber routes, as well as the conduits, poles, strand, power connections, fiber optic cable and appurtenances of the Completed Sites shall be part of the Purchased Assets and will be listed on the Bill of Sale. Zayo's offer of One Million Six Hundred Thousand U.S. Dollars (\$1,600,000) for purchase of the Completed Sites includes T-Mobile's acceptance of the Transfer Agreement. Non-Recurring Charges (or "NRCs") as defined in the TMO MSA in the amount of six thousand sixty hundred fifty dollars (\$6,650) per Completed Site, shall be paid to ICTX upon Acceptance by T-Mobile and invoiced from ICTX to Zayo. Further, ICTX and Zayo agree to divide responsibilities for remaining work, if any, to be performed with respect to the Completed Sites as identified and stated on the tracking chart attached as Exhibit D hereto. Should either ICTX or Zayo fail to perform such responsibilities during the 120 day period referenced above, the non-defaulting party may step in and perform, or cause to be performed, the responsibilities of the defaulting party. In such instance, the defaulting party shall be responsible for the reasonable and necessary costs incurred by the non-defaulting party, but with such costs never to exceed \$42,105.26 per Completed Site. ICTX and Zayo shall not be in default if the failure to perform such responsibilities is due to reasons beyond their control, including but not limited to force majeure delays. In the event of any force majeure delays claimed by ICTX or Zayo, the force majeure event must be not only beyond the reasonable control of ICTX/Zayo, but also not otherwise reasonably surmountable. If the failure to perform for reasons of force majeure continue for a period of twenty days or more, the other party may exercise its step-in rights above.

(c) **Unfinished Sites.** There are twelve (12) hubs and six hundred seven (607) small cells remaining to be completed (the "Unfinished Sites"). Zayo, relying upon information from Paradigm and ICTX, accepts the Unfinished Sites "as is." Any materials purchased or work commenced for design, engineering and permitting for the Project shall be included on the Bill of Sale. In consideration of the extinguishment of the Subcontract Agreement, and T-Mobile's acceptance of the Transfer Agreement, Zayo shall pay an amount equal to Six Hundred Thousand U.S. Dollars (\$600,000).

## **5.2 Allocation of Consideration.** The Purchase Price shall be distributed at Closing as follows:

(a) **Commission Payment.** An amount equal to \$1,106,132 shall be distributed to Paradigm.

(b) **Payment for Completed Sites.** An amount equal to \$1,600,000 shall be paid to ICTX for the Purchased Assets associated with the Completed Sites. This amount shall be paid in the following manner: (i) \$42,105.26 to ICTX at Closing for each of the eight (8) Completed Sites that have been accepted by T-Mobile at the time of Closing; (ii) \$21,052.63 to ICTX for each of the thirty (30) Completed Sites under construction at the time of Closing; and (iii) \$21,052.63 for each of the thirty (30) Completed Sites to be placed into an escrow at the time of Closing. Upon acceptance by T-Mobile

of a Completed Site, ICTX is entitled to a release from escrow in the amount of \$21,052.63 representing full payment of the Completed Site. As a condition of any payment due at Closing by Zayo, Paradigm and ICTX shall have performed in all material respects all obligations and complied with all covenants and conditions required to be performed or complied with by Paradigm or ICTX, or both, as applicable, under this Agreement at or prior to the Closing.

(c) **Payment for Unfinished Sites.** An amount equal to \$600,000 shall be paid to ICTX for the Purchased Assets associated with the Unfinished Sites in full satisfaction of any amounts owing to both Paradigm and ICTX. Paradigm acknowledges and agrees that it is not entitled to any of the payment for the Unfinished Sites.

(d) **Escrow.** At the Closing, the Parties and the Escrow Agent shall enter into the Escrow Agreement, in substantially the form attached hereto as Exhibit E. The amount placed into the Escrow Account shall be equal to the amount identified in sub-paragraphs 5.2(b)(iii) above.

Nothing in this Agreement shall affect any right that any party may otherwise have to bring any claim relating to this Agreement or any related matter against any other party or its assets or properties in the courts of any jurisdiction.

(b) Each of the parties hereto irrevocably and unconditionally waives, to the fullest extent it may legally and effectively do so, any objection which it may now or hereafter have to the laying of venue of any suit, action or proceeding arising out of or relating to this Agreement or any related matter in any Texas state or federal court located in the State of Texas and the defense of an inconvenient forum to the maintenance of such claim in any such court.

ORDER #2 - Houston****To the  
Small Cell Service Schedule**

This SMALL CELL SERVICE ORDER, including all Exhibits attached hereto, which are incorporated herein by reference (collectively referred to as the "Small Cell Service Order"), is effective as of the date of execution by the last party to sign (the "Effective Date"), and is a Service Order for Small Cell Services under the Small Cell Service Schedule to the Master Services Agreement dated February 8, 2008 (the "Agreement"), as amended, between Zayo Group, LLC ("Carrier"), and T-Mobile USA, Inc., a Delaware corporation ("T-Mobile").

T-Mobile and Carrier are referred to herein individually as "Party" and collectively as the "Parties". All terms and conditions set forth in the Agreement shall have full force and effect unless specifically superseded by this Small Cell Service Order. Capitalized terms used herein shall, unless a specific meaning is stated herein, have the respective meanings ascribed to them in the Agreement.

**RECITALS:**

**WHEREAS**, T-Mobile and Carrier are parties to the Agreement;

**WHEREAS**, Carrier shall provide Service pursuant to the Small Cell Service Schedule, including, without limitation, the Technical Specifications to the Small Cell Service Schedule with Points of Termination between the Small Cell Locations and the T-Mobile hub Site serving the applicable Small Cell Location; and

**NOW, THEREFORE**, in consideration of the foregoing and the mutual promises and covenants contained herein, and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties hereby mutually agree as follows:

**A: Small Cell Service Order, Pricing and Term**

1. The recitals are incorporated into this Service Order.
2. Except as provided herein, T-Mobile orders and Carrier commits to delivering Small Cell Service to T-Mobile at various Small Cell Locations pursuant to this Service Order.
3. T-Mobile agrees to pay the MRCs and NRCs, if applicable, at each Small Cell Location during the Service Term as set forth below:
  - a. Installation NRC. Carrier will invoice T-Mobile a one-time NRC per Small Cell Location as set forth in the table immediately below upon the Service Commencement Date for installation.

	Turnkey
Avg. Aggregate Incremental Fiber Distance	NRC
0' – 1260'	\$6,550
8 Completed Sites (as identified on Exhibit C)	\$0

- b. MRC. Upon the Service Commencement Date and continuing during the Service Term of this Small Cell Service Order, Carrier may invoice T-Mobile an MRC per Small Cell Location per month in arrears as set forth below.

	Turnkey
Avg. Aggregate Incremental Fiber Distance	MRC
0' – 1260'	\$359

- c. Pass-Through Charges. In addition to the foregoing charges, T-Mobile is responsible for paying or reimbursing Carrier for the amounts of all Pass-Through Charges or other charges as set forth in this Service Order.

- d. Remove/Replace/Modification NRC.

(1) Repairs. Upon request by T-Mobile and Carrier's removal, replacement, or modification of Equipment related to repairs, Carrier may issue an invoice for an NRC fee of \$650 for three hours plus \$150 per hour commencing on the start of the fourth hour.

(2) Minor Modification. Upon written request by T-Mobile and Carrier's removal, replacement, or modification of Equipment related to antenna swaps (except as set forth below concerning antenna upgrades above the power space), or swap or addition of a radio within the Technical Specifications, Carrier may issue an invoice for an NRC fee of \$650 for three hours plus \$150 per hour commencing on the start of the fourth hour plus pass through of any documented traffic control (lane closure and/or redirection of vehicular or pedestrian traffic) charges paid by Carrier.

(3) Major Modification. For substantive removals, replacements, or modifications including: ground level equipment that requires an upgrade (e.g., increase in size or pour of new concrete) to the enclosure or cabinet; modifications that impact the structural integrity of Street Furniture; the modification would cause non-compliance with Underlying Rights; antenna upgrades above the power space; modifications outside the parameters of the Technical Specifications; and non-traffic control permitting, T-Mobile and Carrier shall mutually agree to the cost, fees and terms and conditions for such removals, replacements, or modifications in writing.

- e. Except for the above fees in this Section 3, Carrier is responsible for all other costs and fees under this Small Cell Service Order.

4. The Service Term for all Small Cell Locations of this Small Cell Service Order will be 10 years.
5. Early Termination Charges. T-Mobile may cancel Small Cell Service at any Small Cell Location upon written notice to Carrier and, if its due to no fault of Carrier, the Early Termination Charge will be (a) if cancelled after issuance of NTP but before the Service Commencement Date, Carrier's actual and reasonable documented capital expenditures, and (b) if cancelled after the Service Commencement Date, one hundred percent (100%) of the total unpaid, undisputed MRC associated with the terminated Service through the 60th month of the Service Order Term, if any, plus fifty percent (50%) of the total unpaid, undisputed MRC associated with the terminated Service for the 61st month through the 84th month of the Service Term, if any, plus twenty-five percent (25%) of the total unpaid, undisputed MRC

associated with the terminated Service for the 85<sup>th</sup> month through the 120<sup>th</sup> month of the Service Order Term.

## **B: Technical and Acceptance Testing**

1. Technical Specifications. Carrier shall provide all Small Cell Services to T-Mobile in conformance with the Technical Specifications.
  - a. Carrier will provide the fiber manufacture specification upon T-Mobile's request.
2. Acceptance Testing. Testing and acceptance will be done in conformance with Section 4 of the Technical Specifications. This includes Carrier sending a Completion Package for each Small Cell Location when Carrier believes that such Small Cell Location meets all the Technical Specifications in the Small Cell Service Schedule. T-Mobile will review the Completion Package within the timeframes set forth in Section 4 of the Technical Specifications, and upon such acceptance or deemed acceptance, the Service Commencement Date for such Small Cell Location will commence. The Service Activation Date is the latest Service Commencement Date upon which all Small Cell Locations that must be commenced together, as identified by T-Mobile in the Design Phase, are commenced.

## **C: Small Cell Location Backhaul Small Cell Location Deployment Schedule**

1. Design Phase. The Parties agree the Design Phase was completed July 25, 2017.
2. Deployment. Carrier will deploy the Small Cell Service as generally set forth in Exhibit A, provided however that nothing in Exhibit A modifies the Parties' responsibilities pursuant to the Agreement.
  - a. T-Mobile will generally provide the antenna, base station, router, A/C Panel, cabling at the Small Cell Location, and other ancillary items (e.g., cabling connectors, etc.) as the Equipment for Carrier to install at the Small Cell Locations. T-Mobile will specify the exact Equipment for initial installation during the Design Phase. Carrier will pick up the T-Mobile provided Equipment at T-Mobile's market warehouse. Carrier will ensure that the Small Cell Locations have the capability to handle the T-Mobile provided Equipment's size and weight as set forth in the specifications in Section 1.1 of Exhibit E-1 (the Small Cell Service Schedule Technical Specifications) to the Agreement plus any additional Equipment provided by Carrier.
  - b. Carrier shall deploy Service to the Small Cell Locations in accordance with the Deployment Schedule and in conformance with the Technical Specifications, including without limitation, providing space and power at Small Cell Locations, installing T-Mobile's Equipment at the Small Cell Locations, and securing all necessary rights for T-Mobile's use of the Service at the Small Cell Locations, Segments, and installation of Segments.
  - c. After the Design Phase and prior to the issuance of the NTP, either Party may only de-select up to five percent (5%) of the Small Cell Locations. After NTP the Party de-selecting shall be responsible for the other Party's actual and reasonable documented costs. If T-Mobile deselects a Small Cell Locations following NTP, T-Mobile shall pay the lesser of all Carrier's documented and reasonable costs or the Early Termination Charge as set forth in this Small Cell Service Order for the Small Cell Location.

- d. For each Small Cell Location, Carrier will notify T-Mobile in writing of its preferred FOC Date. Prior to commencement of any work on a Small Cell Location, Carrier shall request that T-Mobile provide a Notice to Proceed ("NTP") authorization. Upon issuance of a NTP by T-Mobile, the FOC Date will be set to the extent that the NTP does not modify the actual FOC Date by more than fifteen (15) days. The Parties may mutually agree in writing to the modification of the Deployment Schedule from time to time.
- e. If Carrier fails to Deploy the "Minimum Cumulative Number of Small Cell Locations" by the FOC Date in the "Deployment Schedule," in Attachment A to this Small Cell Service Order T-Mobile shall receive a credit per Small Cell Location as follows:

FOC Date Milestone Date Missed	Service Credit Due to T-Mobile
10-20 days	50% of one month's MRC
21-30 days	100% of one month's MRC
31+ days	100% of one day's MRC for each day past the FOC Date

The credits above shall continue to accrue until the Service Commencement Date. If and to the extent a delay or failure of Carrier to meet the FOC Date was caused by the acts or omissions of a local governing authority or power company that was not precipitated by the wrongful act or omission of Carrier and that must be performed or completed before Carrier can complete installation of the Equipment at the Small Cell Location, then delay credits shall be deferred day for day due to the event.

- f. Carrier will credit any such amount to T-Mobile within 60 days of the date it was earned.
- g. Non-Standard Pole Replacements. The Carrier will incur the costs set forth in the table below for non-standard pole replacements for six hundred forty-five (645) Small Cell Locations. T-Mobile shall pay all costs within ninety (90) days of receipt of Carrier's invoice which will be sent promptly after Carrier completes the non-standard pole replacements. The maximum aggregate amount that T-Mobile shall be liable for unless the Parties otherwise agree in writing is \$3,762,200. If any additional costs for non-standard pole replacements at Small Cell Locations are necessary, then Carrier shall notify T-Mobile, and any additional costs must be approved by T-Mobile in advance in writing. T-Mobile shall pay any agreed upon additional costs within ninety (90) days of receipt of Carrier's invoice which will be sent promptly after Carrier completes the additional non-standard pole replacements. If additional Carrier customers utilize a pole located at any Small Cell Location for which T-Mobile paid Carrier for the pass-through costs described in this section C.2.g during the Circuit Term, then Carrier will refund a pro-rata share of the applicable costs paid by T-Mobile within sixty (60) days of the date that such second customer utilizes the pole. By way of example, if T-Mobile paid pass-through costs of \$15,000 for a pole replacement at a Small Cell Location, and a second Carrier customer collocated at the Small Cell Location, then T-Mobile would be entitled to a credit in the amount of \$7,500.

Pole Type	Small Cell Locations	Average Pole Replacement per Unit Cost	Total Not to Exceed Non-Standard Pass-Through
Non-Standard	645	\$5,832.87	\$3,762,200

Upon T-Mobile's request the Carrier shall provide documentation for the actual charges for all pass-throughs.

#### **D: Small Cell Service**

- 1) After deployment, Carrier will continue to provide the Small Cell Locations and Segments, and associated Equipment, for T-Mobile's use in conformance with the Small Cell Service Schedule and its Technical Specifications. This includes, without limitation, maintaining all rights and agreements necessary to provide the Small Cell Locations and Segments to T-Mobile.
- 2) From time to time, T-Mobile may notify and Carrier shall remove Equipment from a Small Cell Location (e.g., antennas) and replace it with new Equipment specified by T-Mobile; provided that the Equipment does not exceed the specifications set forth in Section 1.1 of Exhibit E-1 (the Small Cell Service Schedule Technical Specifications) to the Agreement. Carrier will pick up the new Equipment from T-Mobile's market warehouse and will return the removed Equipment to T-Mobile's market warehouse.

#### **E: Reporting Activities**

1. Carrier will provide a summary project plan derived from detail on a per Small Cell Location basis every month for the duration of the project outlining the current and future project status. The following items will be included, project start date, key milestones, fiber, Equipment procurement/staging, Equipment testing, Equipment installation, Service testing, network activation, permitting, pole attachment status, and commitment level status.
2. As Small Cell Locations are deployed, Carrier will provide T-Mobile with mutually agreed upon reports of operational and technical performance of the Service at those Small Cell Locations, and in aggregate.

#### **F: Regulatory Compliance**

Carrier will complete regulatory compliance for each Small Cell Circuit consistent with Exhibit D of this Small Cell Order and provide T-Mobile with evidence of such regulatory compliance in a mutually agreed upon format which will include the items described in the FCC Environmental Compliance Checklist, the current form of which is set forth in Exhibit D of this Small Cell Order. T-Mobile may update the FCC Environmental Compliance Checklist at any time.

#### **G: Equipment Attachment Fee Increases**

If at any time after the date that T-Mobile commences payment of the Annual Pole Attachment Fee (which shall in no event exceed the maximum amount allowed by applicable law), the Annual Pole Attachment Fee increases by more than twenty-five percent (25%) over the expected total increase based on the known escalator in effect upon the Effective Date of this Small Cell Order, then T-Mobile may provide notice in writing of its request for a relocation of the affected Small Cell Circuit(s), or T-Mobile may terminate the affected Small Cell Circuit(s). The known escalator will be set forth in an amendment to this Small Cell Service Order that the Parties will execute upon completion of the Design Phase. The increase in the Annual Pole Attachment Fee will be determined as

follows:

Actual Increase - Expected Total Increase > 25%

"Actual Increase" = (Actual rate) / (Year 1 Rate)

"Expected Total Increase" = (1 + Escalator) ^ (Year of Circuit Term - 1)

If relocation is requested by T-Mobile, then T-Mobile may port the affected Small Cell Circuit(s) pursuant to the Small Cell Service Schedule. If T-Mobile terminates a Small Cell Circuit in accordance with this Section G, then T-Mobile will pay an early termination charge as liquidated damages equal to the sum of all reasonable, documented, and applicable **(1)** cancellation, termination or similar charges assessed on Carrier by a non-affiliated third party and actually incurred by Carrier with respect to the terminated Small Cell Circuit, **(2)** actual costs and expenses incurred by Carrier in constructing and provisioning the Small Cell Circuit, and **(3)** actual costs and expenses incurred by Carrier in decommissioning the Small Cell Location. The NRC paid by T-Mobile and fifty percent (50%) of the MRC paid by T-Mobile as of the date of termination will be subtracted from any early termination charge.

### **H: Major Deployment Failure**

Beginning sixth months after the end of the first month stated in the Deployment Schedule and at each three month interval thereafter, Carrier will be benchmarked against their total Deployment progress as finalized in the Deployment Schedule. If at any interval Carrier is fifty percent or more deficient in deploying the Small Cell Locations, then Carrier will owe T-Mobile a credit (which may be applied to any amounts due under the Agreement) in the amount of 20% of all NRCs due under this MSO. These credits are in addition to any other credits under this MSO. T-Mobile will also have the option to terminate this MSO without any further liability (including any amounts that would ordinarily be due for early termination). If exercised, then Carrier must: 1) issue the credit as outlined; 2) cease all additional Deployment activities and be unable to invoice for any Small Cell Location not deployed as of the date of termination; and 3) continue to operate all Small Cell Locations that have been deployed for up to twenty-four months after termination (the "Migration Period"), provided, however, that T-Mobile may elect to cease Service on a Small Cell Location by Small Cell Location basis at any time during the Migration Period.

### **I: Agreement Controls**

Unless expressly provided otherwise in this Small Cell Service Order, the Service shall be in all respects governed by the terms and provisions of the Small Cell Service Schedule and the Agreement.

**IN WITNESS WHEREOF**, the Parties hereto have caused this Small Cell Service Order to be executed by their duly authorized representatives as of the Effective Date.
